Subject: Bryston BDP-1

Hello Mr. Tanner,

My name is Sorin and I purchased the BDP-1 and am currently enjoying it immensely.

I would also like to tell you that I have been waiting such a long time for a piece of audio equipment such as the BDP-1. A great combination of excellent build quality, incredible performance, and reasonable price.

Thank you so much. I did allot of my audio shopping on the used market and found allot of great gear so when I tell you that as soon as I got done reading about the BDP-1 and learned as much as I could about it, I called and placed an order for it from Robert's Audio video and drove two hours to pick it up. I never hesitated or second guessed, so that says allot coming from a person that always thought that second hand equipment was always the way to go for Audio. The BDP-1 is truly an innovative and incredible sounding piece and you have every right to be proud. I absolutely love the quality in both sound and build.

Once again, thank you so much Mr. Tanner.

Sorin
