Hello James,

Here is a translation of a message from our new customer for BDP-1

"THANK YOU very much for sent files (Gnome player).

You should call the Bryston BDP-1 Digital Player "digital sound wonder"

After listening to BDP-1 in my system, I was thrilled and was upset that I was hesitating to buy it for so long.

Using a PC with Foobar and BDA-1, the sound is very good, but those emotions and pleasure you have with CD player/BDA-1 are missing. BDP-1 is much better. You have emotions, fantastic space and especially the holographic presentation of voices. The foreign reviews really did not lie.

I thank you again

Zdenek Klimsza"

Best regards,

Vaclav
