BDP-1

Thank you James for the updates, have been using them on both units and I love the new interface and features(random, repeat, larger album art) as well. No more glitches or hangups on some files here and there. Everything is perfect. I love you all in a platonic way of course!!!

I can't stress enough how much my BDP-1's mean to me.

My entire music collection combined with incredible sound quality at the touch of a button. The BDP-1 defines audio perfection.

Take care James and everyone at Bryston.
