Subject: Happy Holidays and Thanks!!

James, just a quick e-mail to wish you and all the staff at Bryston a very happy holiday season!!

Also to thank you for making such a great addition to my music system - the BDP-1. I have not bought anything that has single-handedly transformed the way I access and listen to my music library any better than the BDP-1.

And sonically, it's a slam dunk, as it takes red book to a new level.

Once you helped me to get it configured along with mPad, I have not had a single "problem" with it. In fact, I never did have any problems with it - any temporary glitches were just due to my newness with the BDP-1. I am thoroughly pleased, and I thank you (and Chris) every time I fire it up to enjoy music.

From a very satisfied customer who made an absolutely right purchasing decision a year ago,

Alan Compaan

Edmonds, WA
