

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers

SUBJECT: Bryston Model T Speaker Impressions

April, 2013

BRYSTON's first ever production loudspeaker, the Model T.

My impression of this loudspeaker's presentation is agility. The mid to low is clean, control, defined, proportionately correct and fast. It's like a Kung fu master with feet as light as feather and nimbly controlled.

The clarity of the tones from each instrument is portrayed accurately and believably.

The PRaT is good and one can easily follow the tunes.

The soundstage presented here is as big as the big showroom floor with the width, depth and height to measure. This is an area most audiophiles look and cherish.

After enjoying these qualities and I am amazed, I realized that these loudspeakers only came out from the box recently and already able to perform to these levels.

Kudos to the team behind this great product at an affordable price (in ratio wise).
