## **BRYSTON MODEL T SPEAKER REPORT**

**“James, I just don’t know what else to say about my Model T’s !!!!**

**They are simply so natural sounding that I am frequently caught looking around the room/house to see who made the noise. I can’t just “tune-out” from a T.V. show or movie anymore because I can’t tell what’s part of the sound-track and what’s actually in the house.**

**Very surreal at times.” 😊**

## **Bryston Speakers Owners Thread**

**“Okay who has bought these? I have owned Revel Salon 1 and 2s, Aerial 20T, Egglestonworks Andra2, KEF 207/2, 2 of the Magnepan 20 series and many more and while a couple do some things better than my Model Ts.**

**OVERALL the Model T are the best speaker I have owned. The coherence and dynamics are unbelievable.**

**I find instead of fretting over every little thing we are listening to music MUCH more than we used to. What are your experiences?”**
