El Hefe's Hi Fi Reviews

This space is for my rantings on all things music, movies, hifi, headfi and AV. And once in a blue moon, I do reviews on the cars I have purchased.

Bryston by AV Designs

I must say....this is the best set up for me...monstrous set up for full Bryston system.... James and Low spared no expense to have this set up in the show.

And the Model T speakers....have shown their full potential given the bigger room compared to when I demoed it in the smaller show room. And I have my eyes on the Mini T and Middle T....

Both home cinema and 2 channel Hi-Fi duties....the Model T package surpasses all my expectations... The soundstage and depth presented by these speakers really move my soul... People unexpectedly thought these were other speaker brand...and had high praises on this set up.

The full list for the Bryston set up is as follows:

- **JVC DLA-RS46 Panamorph CineVista lens**
