**Subject: BDP-2**

James,

I was one of the very early purchasers of the BDP-1. I have always been thrilled by both the sound on my Thiel 3.7 speaker system using the BDP-1 as the source for a very large classical music collection and the flexibility of the software interface. I just ordered a BDP-2 ... because I wanted the greater flexibility and the ability to manage very large libraries.

**Note:**

I am keeping the BDP-1 as a "back up" because I cannot face the prospect of listening to music in another manner if something should happen to the media player. I am a VERY satisfied customer.

Best regards,

Larry
