## Salon Son & Image | Montreal Audio Show Coverage Part 2

*April 3rd, 2014, In Audio Video Show Coverage, Features, by admin*

Canadian manufacturer Bryston Ltd. showed its muscle at this year's Salon Son & Image (or Montreal Audio Show) in one of the biggest rooms. Just take a look at their amazing setup above.

George de Sa is working on a full coverage of this room but I had a chance to sit down and have a listen, and snap some pictures, as well while at the show, which I wanted to share with our readers. The large Model T Passive looked friendly and less imposing than you might think in the glossy white finish, and were powered with a couple of 28BSST<sup>2</sup> mono block amps. The sound here was dynamic and powerful and certainly left a great impression and a big smile on my face. I also discovered a very cool new (to me) Nine Inch Nails track called "Copy of a" thanks to James Tanner's diversified taste in music.
