SUBJECT: DEALER FEEDBACK MODEL T SPEAKERS

June, 2014

Hi James,

The T's are sounding great! Do you by any chance like Grado headphones and cartridges?

To me, the Grado sound has always been: great bass, slightly "warm" midrange and highs, plenty of dynamics. To me the T's sound as if Grado made a great set of floor-standing speakers :)

Driving them with the \$20k, 300W Mark Levinson 532. Bass is extended and tight. Nice smooth transitions between the drivers. Great off-axis response. Mids and highs have a slight warm character to them.

I highly suspect these are a perfect match for your amps. I'll have to grab a 4B for display soon....
