Re: Toronto Audio Show (TAVES) 2014

Good evening: I rarely post anymore but I felt this is a proper time to write.

I just came home after spending 9 hours at the Toronto TAVES show. I visited many, many rooms today. Some sounded good - others not so good. And which was my favorite room? The Bryston room - hands down. And this was at the end of the day!

The system that James has with the Model T's is really exceptional. Actually, quite incredible when you realize that the pristine sound emanating from the T's starts

with a USB thumb drive as the digital medium. The sound is so smooth and natural - completely effortless and non-fatiguing. Dare I say tube-like without any tubes in sight!

James - this is Sam - your system is quite an accomplishment - congrats!!

And by the way: I was listening to the system in the sweet spot, and James was right next to me. He is a great guy to talk to; he answers questions with total honesty. Those of you who have met him know that he is one of the true "White Hats" of the industry.

This was a treat.
