

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers
SUBJECT: Bryston Dealer Feedback

Hi James

System set-up: Bryston BP-26 Preamp, 4B SST2 Amp, BDP1 Player, BDA2 DAC on Model T's and Mini T's. Short story for you.

Upon unveiling these speakers with anticipation one wondered how good can they be?

Well let me tell you, they play as big as they look. These speakers are silky smooth and the timbre is amazing even as I kept turning the volume up and up on this BP-26/4B SST2 combo. Not once did I hear compression happening in the midrange nor tweeter at these volumes.

These Bryston speakers are nice and relaxed but yet detailed...no listening fatigue with either one. Both speakers are fast and the bass extension is unreal...are you sure there is no sub on? The woofers are built like a massive car subs..Don't believe me take one out, I did..WOW!

For a company just new to the speaker industry I think Bryston is on to something amazing here! Can't wait to see what the future holds for Canada's finest...
