

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers

SUBJECT: Bryston BIT 15 Isolation Transformer

December 2014

Mr. Tanner,

I've been an Audio Amateur for almost 45 years, starting when I was 10 with my first PAS/Stereo 70 and Advent Large speakers.

I have to tell you that one of the most significant upgrades to any of my systems is the BIT-15. I have a Bryston loaded system that includes the BDA-1, BDP-2, 4B SST2 wrapped by ARC LS-27 and Sonus Faber Cremona M's.

I thought my system was complete once I introduced Cardas Clear XLR's and the music seemed in full bloom.

After reading much about the BIT I hesitantly purchased the BIT-15 to replace what I thought was a fine mid level Furman. The BIT opened up and maximized the potential of system beyond belief. The new extended range of sound is truly amazing. You would thought a sub woofer was added in somewhere in the room.

I've been blown away and I just wanted to let you know how happy I am with your products.

Regards,
Bruce A. Hepner
