SUBJECT: Bryston A3 Speakers – Dealer Feedback

December 2014

Starting to get some good feedback on the smaller A Series speakers.

Dealer Feedback:

Hi James

Got the smaller Bryston A3 speakers in yesterday.

BRYSTON A3 MODEL.

Obviously the Big boys (Model T) are much better in the deep bass and dynamics department. I was worried the A3's would sound a little thin and bright.

But they don't, tonal balance-wise I was surprised how similar they are to the T's - smooth, body, bass is impressive for the size and they image like crazy.

They sound fantastic!
