SUBJECT: Bryston Middle T Speaker – Customer Feedback

June 2015

Hi James,

I am the dentist who sat with you for awhile listening to the Middle T's. I am the one with the Tannoy Ardens and Quad 57's.

BRYSTON MIDDLE T

I bought the speakers from the show through Hi-Fi Center in Vancouver and bought a new BP 26 preamplifier and power supply as well.

I love the speakers!

They are effortless to listen to at any volume and I do not get fatigued at all. I especially like the quality of the base. At times I seem to feel it in my chest. I was wondering: would there be any benefit in adding the Model T or Mini T subwoofer or is that more of a home theatre application? What do you notice when the response gets down to 25 Hz and 18 Hz?

Cheers
