SUBJECT: Bryston 7B Cubed Amplifier Feedback

April 2016

Thanks Maestro/James!

Despite me moving house soon, I decided that I could wait a whole month before opening the boxes and listening to my new 7B3's and boy are they good!

First impressions are extraordinary... as others have said, it is the depth of the noise floor, and therefore the dynamics of the sound, that are their most obvious feature, but after just an hour or so of listening the speed, timbre, space, placement, *everything* is a real step up!

Congratulations to James and Team - a truly revelatory and, dare I say "Revolutionary" rather than "Evolutionary" improvement!
