

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers SUBJECT: Bryston – Dealer Feedback

August 2016

Hi Folks,

Some nice feedback from one of our dealers in New York.

Good Morning James,

I want to personally Thank You and the Bryston team for all that you do.

Demo Bryston system consisting of:

- Bryston BDP-2 Digital Player
- Bryston BDA-3 DAC
- Bryston BP-26/MPS-2 Preamplifier
- Bryston 4B Cubed Amplifier
- Bryston BIT 20 Isolation Transformer
- Bryston Mini-T Speakers

Using all High End Audioquest Interconnects and Power Cables.

Using the Roon Interface via a Mac Mini setup with 2 OWC External Hard Drives at 6 TB each. Hard Drives are connected via FireWire to the mini and USB out to the BDP-2. Music Files were originally alac and aiff, they have all been up converted to Double DSD.

Sounds Awesome !

Had dinner with Wayne last night and listened to music. We have a couple of more tweaks and then I will be looking to purchase a BDP-Pi to integrate with Roon to create a Multi Room System, using Roon to control the volume in the second room.

If you get a chance, demo the Beatles "Because" from the Love CD. Blew Wayne away.

Thanks Very Much!

My Best,
Shawn Abitz,
Installation Specialties Inc.
