A Lifetime of Music

**MEMO: To All Bryston Customers**

**SUBJECT: Model T Speakers – Dealer Feedback**

October 2016

Hi James,

Here's some info on my new showroom system.

I'm in the break in process of the 14B3 and the Bryston Signature Model T's. So far I'm 'groovin'.

On the loudspeakers, I haven't yet found the upper limit of how loud they will play.

They have everything I love about the Mini Ts, just more of it.

The test for me of a hi-fi system is always, does it totally communicate the emotional impact of the music and make me want to dance?

As you can see from the photo, my hi-fi store is connected to my wife's record shop, and last Saturday, we had a group of 5 young African American customers in the store who were in town for a convention at Opryland, and were making the record store rounds. While they were checking out, I asked, does anybody like Alabama Shakes? The answer was an enthusiastic yes, so I called it up in Manic Moose and cranked it. The group and I were dancing around the room and singing along.

Well done Bryston!
