Toronto Show Report

Yet another Canadian brand, Bryston, is showing its new 'active' speaker system, consisting of Model T floor-standers with the new BAX-1 external crossover.

For the bass section, each channel had Bryston's 7B Cubed monster. Power for midrange and high-frequency came from the two-channel 3B Cubed.

The sound was incredibly fast and dynamic, and the blend between the drivers completely seamless.

Also being shown are the new BCD-3 CD player and BLP-1 turntable.
