

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers
SUBJECT: 28B Cubed Amplifiers Dealer Feedback

December 2016

Hi James

First, let me say that I am not someone to gush about new audio equipment; god knows I have had my share of gear.

We just got done installing the new Bryston 28B Cubed amps, and fired them up. Cold out of the box, they are freaking Amazing!

I mean they made my R1's sound like I have never heard before. They have so much authority, depth, finesse, dynamics, bass (like I never heard; 2nd time I said that) and imaging; I could just ramble on!

This is truly an anomaly in the audio industry, where an amplifier that retails at this price runs circles around it's competition.

James and Crew;

Kudo's for creating some of the finest electronics on the planet, at any price! The 28B Cubed amps are Astonishingly Good, run don't walk to your nearest dealer and hear them for yourself!

So much more to come; frankly, I am still stunned!

All the Best, Ivan
Legend Audio

P.S. - I just sold a pair of them from my very first demo! ;)
