MEMO: To All Bryston Customers
SUBJECT: Bryston BDA-3 – I was Floored!

January 2016

Bryston:

I received my BDA-3 yesterday.

Spent not much time setting it up, launched Audirvana on a Mac Mini and streamed in a DSD--and I was simply floored!

I followed it with CDs and SACDs--no matter, the sound was crystal clear, perfectly spatially separated and stable. I think I listened for six straight hours.

Of course the unit was feeding a BP-25 preamp and 4B SST amp, so it was going to sound good. It's much more though. It sounds GREAT.

Well done, all around. Bryston products are not cheap, but so worth it.
