MEMO: To All Bryston Customers
SUBJECT: Bryston BDA-3 DAC Review – UHF

February 2017

Hi Folks – nice feedback from a review to appear shortly from UHF Magazine on our new BDA-3 DAC.

“Hi Folks,

In the midst of listening sessions with the new Bryston BDA3 DAC.

We began the sessions with the unit you see here, the Bryston BDA-3. We had reviewed the BDA-2 in an earlier issue of UHF, and we can say that the third incarnation of this converter is a mighty

leap forward. As usual, we don't give “stars” or other numerical ratings to products we review, because that would take away the nuances we strive to add to our reviews.

Suffice it to say that this is a very good product.

Well, we should possibly add one more nuance: we liked the BDA-3 enough to have purchased one for our reference system. And, to add one more nuance, one of our panelists, Albert Simon, bought one as well.

We're continuing our sessions.”
