Thoughts on the Bryston BDP-2

Hi James

I am absolutely "gobsmacked" by the quality of the sound coming out of the BDP-2 using MPD.

I thought my MacBook Pro + Intona Isolator + VBus2 isolator + Uptone Regen (LPS-1) was great until I used the BDP-2, there is no comparison (in my opinion, in my system).

The BDP-2 is producing the best sound I have ever obtained in my system, especially when used with the Intona/VBUS2/Regen.

I'm very sure (confirmed by listening comparisons) I would need to spend more than 3 times, probably 4 times, what the BDP-2 sells for, to slightly improve on sound quality.

My Best
Barry
