SUBJECT: The New 4B Cubed – Tube

April 2017

Hi James.

I'm doing some home audition with your 4B3 amp for last couple of days.

Let me tell you I never been a fan of Solid State at all. I owned/tried so many SS amp and gave up few years ago and been only own the tube amplification since.

However this 4B3 amp just open up the whole new world to me.

I just can't believe the depth, 3D presentation and how smooth it is without losing any details and high without being harsh!

I'm so impressed with it and wondering about the 28B3 amps.

Thanks,
Paul
