

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers
SUBJECT: Bryston Turntable – Customer Feedback

February 2017

Hi, James,

My opinion of the sound of my new Bryston turntable.

In short, the sound and overall performance exceeds my expectations!

As a 17-year owner of Bryston audio equipment, my bar is quite high.

Tracking, with an Ortofon 2M Black cartridge is flawless. I agree with your position that an anti-skate mechanism is not needed.

The arm tracks the bias bands on the Hi-Fi News Analogue Test LP—even band 9, the “torture track.” The turntable design strikes me as being based on pragmatic engineering and material science principles rather than in vogue audiophile ideologies.

I am also pleased with the quality and performance of my new BP26MM preamplifier, PS3 power supply, and 2.5B(3) amplifier.

Thanks for the help and advice.

**Yours truly,
Jim Citti**
