MEMO: To All Bryston Customers SUBJECT: Bryston Model T Active – Tom in Singapore

Thanks James!

I just played my new Bryston BAX-1 Digital Active Crossover on my Model T Signatures for a short while...

Absolutely superb!

It's such a refined and polished sound now...and the sound stage and detail is incredible...

It's not like day and night compared to the passive Xovers...which speaks a lot for the excellent quality of the passives...But it's a whole new level now in terms of resolution and detail...

Awesome!

Later...I played my MD collection...all from Radion recordings over 20 years...and I never heard this kind of detail...details I have never heard before...complete accuracy...like a veil has lifted! 🎸🎷

By the way, the Hana cartridge also came for my BLP-1 Bryston Turntable ...and it sounds great out of the box ...superbly balanced sound...exactly what I was missing all the time...🎧🎧

Cheers and thanks for making it happen James!

Best regards,
