

# BRYSTON

A Lifetime of Music

**MEMO: To All Bryston Customers**

**SUBJECT: New Bryston BP-17 Preamplifier – Dealer Feedback**

**October, 2017**

**“Hi James,**

**I managed to get our very first BP17cubed set up this afternoon and immediately compared it to our BP26 that had been warmed up for the last week or so.**

**First impressions are...well, I get it; there is a composure to the new Bryston BP17 Cubed that is really fascinating.**

**The sound is both fast and "pure".**

**The BP17cubed's image transparency is alarming! I am now so used to HiFi systems presenting a very solid stereo image, that exists outside of the speaker, I almost don't pay attention to it anymore. But the BP17 has a focus and separation between instruments that is positively tube like!**

**Cool piece!**

**Thanks,  
JD”**
