SUBJECT: Model T Active Demo – TAVES 2017

October 2017

Briston's active set up was unbelievable if you turn it up yourself and sit down for a listen.

Those Model T's in active are not their passive siblings! I've only heard such ease and power from electrostatic speakers. But of course their set up offered far more dynamics and impact.

Very natural and wonderful sounding. Looks aside, this was the most sonically impressive system for me personally.
