A Lifetime of Music

MEMO: To All Bryston Customers

SUBJECT: Bryston Model T ACTIVE Speakers – Customer Feedback

January 2018

Hi James

I just had my left knee replaced this morning, and while in the hospital, I wanted to make sure I took the time to thank you so much for taking care of my equipment desires.

It took me a long time to put everything together but managed to finish last night. I did not have the time to do any tuning however, I was completely blown away by the results!

I have the SP3 as the pre-amp into the BAX-1 Active Digital Crossover. Driving the mids I'm using 7B3s, and for the woofers & tweeters I am using 7BSST2's.

As you have said, going ACTIVE is a tremendous upgrade. The soundstage is so smooth, silky, detailed, and engaging.

When going into surround mode with a 4B driving the rears, and a 7B3 in the center, oh my goodness, fantastic! When I have all cubed amps and get it tuned up, well, I honestly can't imagine how good it will be.

Thank you sir!

Is it live? No, it's my Bryston's!

Best,  
Marc
