

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers

SUBJECT: Bryston Mini A Speakers – Dealer Feedback

February, 2018

James, we have a set of your amazing Bryston MiniA speakers on display (brought in several pairs for a customer's home).

WOW!!!

I cannot believe how clear and loud they are when pushed hard. Absolutely no signs of edginess or distortion when we crank the volume up excessively loud. Customers immediately start looking for the subwoofer when we demo them.

You really seem to have addressed what has been an issue with home speakers. When you ask a customer if they are looking for SQ or SPL speakers they usually tell a fib and not to look

like a Neanderthal tell us "SQ" when all we want to know is how loud they may play them.

Listening is an emotional experience and when we find a song we REALLY like we may turn it up really loud.

Thank you for allowing our customers not just choose between "loud" or "lovely".

James, I haven't had this much fun with speakers for a long time speakers back in the day. Value, performance and excitement!

Bryston should be very proud.

Great job.

Thanks,
Brad Ferguson,
Audio Concepts
