MEMO: To All Bryston Customers

SUBJECT: Bryston Model T Speakers – Customer Feedback

February, 2018

Hi James,

Just purchased a pair of Bryston Model T speakers in Natural Rosewood.

I bought them from Absolute Audio here in Calgary ... great guy his name is also James ... also great bunch over there wouldn't hesitate to go back.

I was all vintage before, Klipsch heritage speakers plus monster receivers. I just got sick of having to fix things all the time so I went more modern. Klipsch Chorus IIs were my favorite speaker but could be a tad bright and not enough bottom end.

I am currently running an integrated McIntosh MA8000 300wpc with options of 2, 4 or 8 ohms. Currently using 4ohm tap it does seem to eat a lot more juice so would you also recommend switching to 8ohm with this amp?

The Model T speakers are so easy to listen to. Love the bottom end ... here's a pic.

Love the speakers ... they sound fantastic and look just as good!

Thanks again for all your help James,  
CY
