SUBJECT: Bryston Middle T Active – Customer Feedback

March 2018

Hi James

Model T Active vs Middle T Active

So far my initial impression with the new Middle T Actives is a very similar clean, neutral and refined presentation!

The Middle T speakers are brand new...and I must crank up the volume a bit more to get a similar same scale of the Signatures...but I am sure they will run in slowly in the next weeks...

The highs seem to have more sparkle and resolution, and I am very happy that the bass is still very impressive and fast.

You remember I was a bit scared because the Signatures spoils us with such a magnificent bass punch... maybe someday we add a middle “sub” to get the ultimate bass weight.

I just played “Mean to Me” from Rita Coolidge...one of my personal reference tracks...and the double bass is well defined, fast, and airy, just like on the Signatures.

Overall, a speaker with fantastic value...and definitely “Signature” sound quality...plus, great for the wife factor, due to the compact dimensions!

Cheers to you !
