

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers

SUBJECT: Bryston Demo TAVES 2014 '6-Moons'

Next up the scale we hit the Bryston room.

Vast product lines on display. I had a fascinating chat with Vice President James Tanner about the historical progression of the firm from medical technology to highly respected consumer and professional high-end staple. These are legendary bulletproof electronics. Playing was the big Model T, a relatively inexpensive statement loudspeaker (by high end standards), built to Bryston's specs by Axiom.

The Bryston combo played at levels soft to loud with tremendous dynamic range and true full frequency range. Quick, crisp and clear, these appeal to those who want their resolution and transparency with massive kick when called for.

Homegrown pedigree.

Glen Wagenknecht
