A Lifetime of Music

MEMO: To All Bryston Customers
SUBJECT: Bryston Mini A Speaker Review

January 2015

Some quotes (English translations) from our latest Mini A speaker review.

“The Bryston Mini A Loudspeaker is an extremely interesting product in its price range, both in terms of a bookshelf monitor and floor-standing speaker. The Mini A has the sound quality of a much larger free-standing loudspeaker.”

“It is not widely expected to have such a combination of spaciousness, neutrality, bass definition and sound scale in a speaker system in this price range. Bryston has done it with great success. Therefore, we grant the Bryston Mini A our highest award. The Bryston Mini A is really worth an audition.”

“Relating the qualities of the Mini A to its price and comparing them to the competition – both more and less expensive - I assert that it is one of the "Best buy" speakers in recent years.”

“I must mentioned the stereo capability. Let me be extremely clear about this: in my opinion, in the case of the Mini A, it is simply outstanding. Outstanding in its price range and very good in absolute terms. Hardly ever do floor standing column speakers, two or three times more expensive create a more realistic soundstage, and most of all an equally deep sense of space.”
