

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers

SUBJECT: Bryston Mini T Speaker – First Impressions

March 2015

“Hi James:

A week of daily use with the Bryston Mini T's and I have some early observations.

First, they are among the lowest distortion, artefact free stand mount speakers I have ever used. Period.

(Driving them with a 130 WPC Sidaudio 760A Amp). They are so precise, nimble, and dynamic, way beyond their price points. I usually hear these qualities with far more expensive products.

I feel the Mini Ts are bringing the music to me, just as live musicians would, with speed and clarity. The bass, as Jeff said, is just outrageously good.

This will be a very pleasurable review period.”
