

# BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers

SUBJECT: Bryston Active Model T Demo – TAVES 2017

**Enjoy the Music.com®**

“Bryston set up in the large Waxman 1 conference room,

The rig featured the same Model T Active speaker shown earlier this year at Montreal, but it is not your typical active speaker with built-in crossover and amplifiers — those are housed externally.

The tweeters mounted high on the speaker gave the soundscape an unlimited sense of height with the music I heard. This was clearly a solid state rig and it was one of the Best Rooms at the show with effortless power, great dynamics, huge soundscape and excellent resolution and transparency.

Also new at this show were a pair of powered subwoofers, a smaller one with two bipole 8" drivers firing in opposite directions, and the larger with two bipole 12" drivers. Both subs are powered with a built-in 600 Watt Bryston amplifier. Using twin drivers in sealed cabinets in a bipole configuration is intended to cancel out the cabinet vibrations.”
