MEMO: To All Bryston Customers

SUBJECT: Germany – Bryston 7B Cubed Mono Amp Award

Hi Folks,

As you know we recently received an award for the Bryston 7B CUBED for 2018 from the very well-known German online magazine ... www.fairaudio.de

The most telling part is in the German review is (Translated):

"In short, the 7B³ deliver the finest, highest-resolution sound that I've ever seen in power amplifiers of any color and price range.

And I mean "real" resolution, not the harsh halftone, the silvery high-pitch range or an over-drawn attack, with which so many supposedly high-resolution components are flirting and at the same time pretense precision only at elevated stress levels."
